

Rack Armour®

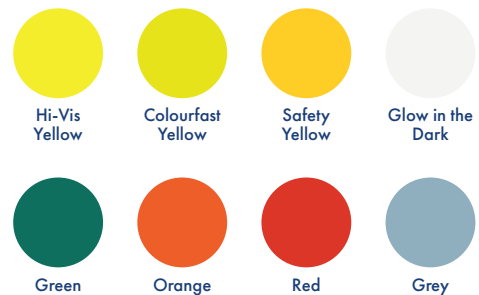

The original upright protection against impact damage

Features and Benefits

- Patented design deflects and absorbs impact
- Easy to fit with no extra fixings required
- Multiple size options to ensure secure fit
- Use in temperatures as low as -40°C

Colour Options

Description

Manufactured from low maintenance High Density Polyethylene (HDPE), Rack Armour® guards are durable and extremely effective in preventing damage to uprights.

Available in a range of striking, high visibility colours that are easily detectable. Organise your warehouse with our traffic light colour range.

Fully recyclable and non-toxic. The original Rack Armour® is suitable for use in food production facilities and freezer environments up to -40°C.

Testing

Rack Armour® has been tested to international standards, including FEM 10.2.02. The results demonstrate the Rack Armour® guard protected the upright from any noticeable damage when subjected to impact typical of an MHE operating along racking aisles. Please enquire for further information.

Property	Specification
Material	HDPE & Foam
Properties	Resistant to water, mould, corrosion, and most solvents
Temperature Range	-40°C to 50°C
