

# The Floor Marking Range

**Suitable for  
all sectors  
of the  
workplace**

- ✓ **Industrial strength**
- ✓ **Aggressive adhesive**
- ✓ **Slip resistant**
- ✓ **Trip resistant**
- ✓ **Cost-effective**

# Floor Signals

For **walkways**,  
**pallet storage**,  
and **equipment**  
**positioning**

- A simple but effective solution for marking areas on the floor
- Tough PVC with an aggressive adhesive
- Capable of withstanding everyday traffic of a fully operational warehouse
- Helps to improve efficiency and safety

Highlight pallet areas, walkways and traffic flow. Manufactured using a thin plastic membrane and laminated with an aggressive adhesive.

These floor signals bond strongly onto the floor surface and are resistant to the rigours of a busy warehouse and other areas with high footfall. The markers are suitable for application onto any clean, flat, sealed surface.

Available in **6 shape options** and **6 colours**

Ref	Shape	Size (mm h x w)	Pack	Colour
FS/+	+	300 x 300	10	All colours

			25 left/ 25 right	

- Flat, colour coded floor identification frames
- Available in 2 insert sizes: A4 and DL
- Choice of 6 stand out colours
- Permanent industrial strength adhesive to withstand warehouse traffic
- Ideal for identifying bulk stack locations or to highlight important information

Tough, permanent adhesive colour edged PVC frames that enable a printed message or code to be placed and protected onto the floor. The frames bond onto the floor surface and are therefore resistant to the rigours of a busy workplace.

The frames are available with two window sizes: A4 (up to 200 x 290mm) or DL (up to 89 x 199mm). Frames are available with six colour options, making them ideal for 5S and Lean environments.

Available in 5 standard colours or chevron

# Floor Identification Markers

## Letters A-Z

## Numbers 0-10

- High visibility floor markers for the workplace
- Designed to identify aisle, bay or other warehouse floor areas
- Available in A-Z and 0-10
- Each marker is 190mm diameter

These high visibility floor markers have been designed to cope with the daily stress and strain of a modern warehouse. All our markers incorporate a permanent aggressive adhesive backing and can be used not just on the floor but any dry, clean flat sealed surface. The 190mm diameter markers are printed with a bold black digit on a yellow background in letters A-Z or numbers 0-10.

**Simple and effective floor identification for the workplace**

Ref	Size (diameter)	Background Colour
FMC/ - (State digit)	190mm	Yellow

# Floor Graphic Markers

*Clear visual  
signage helps  
improve  
safety*

- High visibility floor graphic signs
- Available with text and symbol-only designs
- Safety signs for the floor and wall
- Large 430mm diameter
- Highlights warnings or special requirements

A range of eye-catching, highly visible floor signs which will highlight warnings or special requirements. Printed on the underside of a tough clear plastic film and laminated with an aggressive adhesive means that these signs can be used in any busy industrial environment.

Available from stock with 36 standard designs. However, bespoke signs can also be produced when required.

**Premium quality** floor markers with an **aggressive adhesive** withstands the busiest of environments

Ref	Size (diameter)
FM01 - FM38	430mm

## Specials available upon request

ASFTS/YE		104 x 57	Yellow

# EV Charging Stencil Kit

- Highly visible stencil for electric vehicle charging bays
- Help drivers efficiently locate the correct area to charge their electric vehicle
- Stencil is 600mm x 600mm overall
- Available as an individual stencil or in a choice of 3 kits with different paint colours
- A cost-effective, reusable and long lasting solution

Highly visible stencil kits designed for electric vehicle charging bays. Help drivers efficiently locate the correct charging bay areas, where they can charge their electric vehicle.

There are thousands of electric vehicle charging points in the UK alone, often located in supermarkets, shopping centres, public car parks, hotels and service stations. These stencils are ideal for any area where electric charging points are located.

Each stencil is 600mm x 600mm overall. However, if you require a different size, we can create bespoke size stencils to your requirements.

Available singularly as a stencil, or with a kit. Each kit is available with 1 stencil, 2 cans of paint and a hand held paint applicator. Choose from 3 different paint colours – red, yellow or white.

# EV Charging Stencil Kit

## KIT 1

### STENEV-KIT-RE

1 stencil, 2 cans of red paint and a hand held applicator

## KIT 2

# Stencils

- Quality re-usable stencils
- Stencils available in 4 sizes
- Saves valuable time
- Large 750ml paint cans available
- Paint cans suitable for manual use or applicators

Our stencils are manufactured from a rigid PVC film, each one is laser-cut for accuracy, with a transparent anti-glare finish which is naturally scratch resistant. If properly cared for, our stencils can be used again and again making them not only very economical but also quick and easy to use, saving valuable time compared to other methods of marking.

## Letter & Number Stencils

- Re-usable
- Flexible PVC sheets
- Complete sets of 0-9 and A-Z
