

## Brandsafe

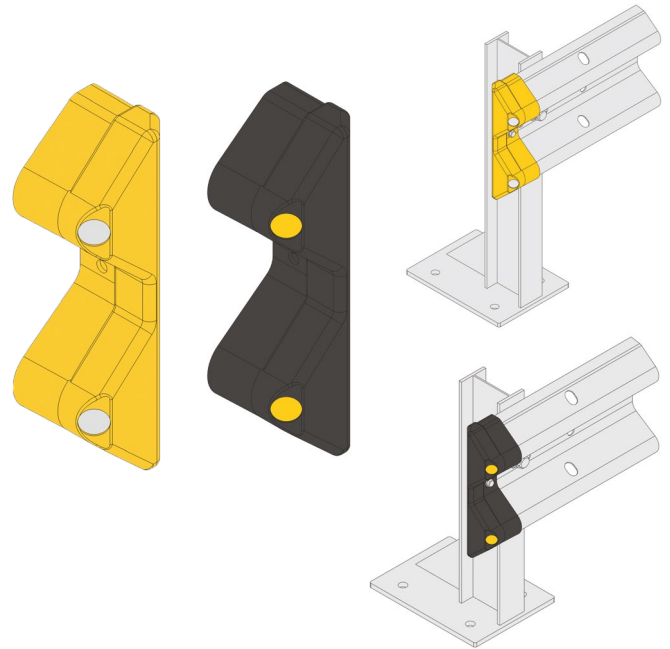

### Armco Safety End

Polymer moulded ends with single point fixing makes this product easy to use and swift to install. Highly visible, robust and friendly to pedestrians, doubling as a variable angle when abutted. A low-cost **polymer safety end** or corner moulding that has high visibility and is simple to fit. Ideal for covering razor sharp Armco cut ends that otherwise present safety issues.

## Features and Benefits

- Designed to provide a safe termination to Armco.
- Ideal for covering sharp Armco cut ends.
- Over 75% less fixings and installation time than most other terminals.
- Diamond grade reflectors for HGV night visibility.
- Full retrofit compatibility with all steel Armco ends.
- Suits Armco 310 mm x 85 mm corrugated rails.
- Cut Armco ends and corners can be terminated with 1 no. 11mm HSS drilled hole.
- Bolt fix secured with 1 no. M10 x 35 mm.
- Available in Yellow or Black.
