

## Brandsafe

# Column Protector Forklift Impact Skirt

An optional addition to the column protector range. It provides additional strength at the base of the column protector in high risk impact zones where vehicles such as forklifts may be in operation.

## Features and Benefits

- Steel skirting to handle low-level impact from forklift forks and pallets.
- Avoid scuffing and denting the base of your column protectors.
- No mechanical fixing, preventing damaged to substrate on impact.

## Technical Details

- Folded galvanized sheet metal skirt.
- 140 mm high.
- Two size options.
- Column protectors - 674 mm wide x 665 mm long.
- Spacesaver column protectors - 431 mm wide x 422 mm long.
