Flexi Delineator Chain Fixing Kit

This chain fixing kit is an additional accessory for our flexi delineator range, allowing the chain links between bollards to be connected from the top cap to another top cap. 1x chain fixing kit per post.

Features and Benefits

- Allows the chain links between posts to be connected.
- Connects from the top cap to another top cap.
- Both the top cap and s-clips are made from a polymer construction to withstand indoor and outdoor use.

Technical Details

- The kit comprises: 1x top cap and 2x s-clips.
- 1x top cap – place onto the complimentary shape found on each delineator post and then fix with a pop-rivet. The threaded top hoop can then be screwed into the cap.
- 2x s-clips – join these to both ends of each chain link to attach securely to the top cap.

Top cap height	119 mm
