

Beaverswood®

Magnetic Label Holders
15mm - 80mm High

Our magnetic label holders are supplied from stock in pre-cut lengths but special sizes can be supplied on request. Each holder is supplied with white card inserts and a cover strip. Pre-printed inserts can also be supplied for each of the holders incorporating barcodes and locations codes. The magnetic fixing is ideal for applications where regular changes are required, easier and quicker to move than adhesive backed holders. They are also suitable for use in cold stores.

Can this product be used in a chilled environment? Yes, this product is ideal for use in chilled environments. However, we always recommend applying at ambient temperature first and then lowering the temperature. This is to reduce the possibility of ice or moisture getting between the magnetic backing and the steel surface.

Features and Benefits

- Ideal for identifying permanent locations on steel shelving and racking.
- Suitable for use in cold stores and chillers.
- Easy to update and relocate.
- Clear UV ray resistant front allows barcodes to be scanned.
- Choose from pre-cut stock sizes or can be supplied in custom lengths.
- Supplied with white card insert.
- Protects inserts from damage.
- Highly durable, withstanding daily use in industrial environments.

Material Specification

'C' Carrier

Isotropic Magnetic Extrusion (Matched Poles) Material Properties Flexible Magnetic Extrusion comprising of strontium ferrite in a synthetic rubber binder and magnetized multi-pole on one face.

Temperature range: -30°C to 55°C (above 50°C magnetic losses occur). Flexibility: At 20°C the material can be wound around a 50mm diameter mandrel without cracking.

Card Insert

White 150 gsm pulp board. Virgin wood fibre bleached using Elemental Chlorine Free (ECF) process. The material can be disposed of by recycling.

PVC Insert

220 micron calendared, rigid PVC film. The film complies with the guideline 2002/72 EC ("Clearance Certificate for items used in contact with foodstuffs") as well as with 94/62 EC ("Packaging and Packaging waste").

Form of Supply

The extrusion is supplied boxed in cut pieces. or in coils of up to 50 metres.
