

Brandsafe®

Pedestrian Barrier

These **pedestrian barriers** are ideal for highlighting safe pedestrian areas and guiding people in the right direction, internally or externally. They have been designed with safety and segregation in mind, minimising the risk of accidents between pedestrians and drivers.

Features and Benefits

- Manufactured from a flexible HDPE polymer.
- Designed with safety and segregation in mind.
- Quick and easy installation - all fixings provided.
- Materials are non-toxic and fully recyclable.
- Suitable for use in food production facilities and freezer environments.
- High visibility colour clearly highlights safe pedestrian areas.
- These pedestrian barriers do not act as impact protection. Add bumpers for extra protection.

Colour options: Other colours are available upon request, subject to minimum quantity.

Material	High density polyethylene (HDPE)
Properties	Fully recyclable and non-toxic
Temperature range	Use in ambient, chilled and freezer environments
Height	1150mm (post)
Width	300mm (footplate)
Length	1400mm upwards
Colour options	Safety Yellow and Grey

Please note: All polymer barrier installations include a minimum length of 1.4 metres. For barrier runs of 3 metres or more, a centre post will be incorporated to ensure maximum protection and structural integrity.
