

## **Rack Armour®**

The Original Upright Protector

Manufactured from low maintenance High Density Polyethylene (HDPE), **Rack Armour®** guards are durable and extremely effective in preventing damage to uprights. Available in a range of striking, high visibility colours that are easily detectable. Fully recyclable and non-toxic. The original **Rack Armour®** is suitable for use in food production facilities and freezer environments.

## **Features and Benefits**

- Patented design deflects and absorbs impact.
- Patent number 2413276.
- Easy to fit with no extra fixings required.
- Multiple size options to ensure secure fit.
- Use in ambient, chilled and freezer environments.
- Fitted in seconds and lasts for years.
- Lower maintenance than metal barriers.
- Fits various types of pallet racking and is transferable.
- High visibility colour options for industrial safety.
- Materials are non-toxic and fully recyclable.
- Impervious to moisture, mould growth, corrosion, acid, alkaline & most solvents.

## Testing

**Rack Armour®** has been tested to international standards, including FEM 10.2.16. The results demonstrate the **Rack Armour®** guard protected the upright from any noticeable damage when subjected to impact typical of an MHE operating along racking aisles. Please enquire for further information.

\*Some rack types do have wider/deeper side profiles which sometimes require a larger **Rack Armour®** guard. If you are unsure on which size you require, please contact us.

<b>Material</b>	HDPE and Foam
<b>Properties</b>	Resistant to water, mould, corrosion, and most solvents
