

Beaverswood®

Shelf Information Labels

Our highly visible labels were originally designed to highlight Max UDL or SWL on shelving and pallet racking beams, but these labels can be used virtually anywhere and on most surfaces.

Can this product be used in a chilled environment? Yes, this product is ideal for use in chilled environments. However, we always recommend applying at ambient temperature first and then lowering the temperature. This is to reduce the possibility of ice or moisture getting between the magnetic backing and the steel surface.

Features and Benefits

- Highly visible information labels.
- Magnetic or self-adhesive fixing.
- Price includes printing.
- Black text on white or yellow background.
- Choice of four standard sizes.
