

Beaverswood®

Wire Shelving Clip Holder

Identifying locations on wire mesh shelving is difficult as traditional magnetic or self-adhesive holders do not suit wire mesh shelving. This holder solves the problem by using a quick and easy to use “clip-on” system.

This versatile holder can be used in three different formats: straight for shelves that are eye level, approx 33° for lower shelves, and approx 45° for the very bottom shelf enabling easy reading. The holder is reversed for high level viewing.

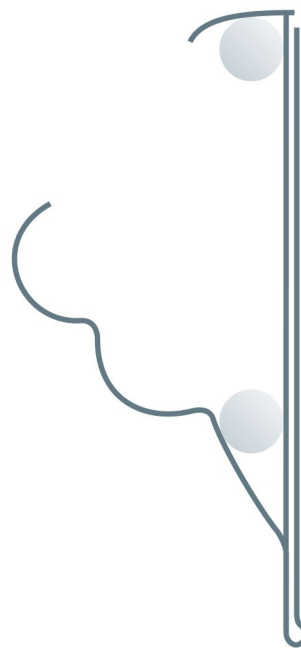

Features and Benefits

- Easily identify locations on wire shelving.
- Pull forward front for loading.
- Scan barcodes without removing insert.
- Positioned flat or at an angled setting.
- Holder can be reversed so higher levels are easier to read.

Material Specification

PVC Extrusion

Transparent– UV ray resistant Eco compatible stabiliser/ lubricant system based on Calcium and zinc salts.

Specific weight	1.35g/cm ³	ISO 1183
Izod impact strength	150 J/m@23°C	ISO 180
Elastic modulus	2700 N/mm ²	ISO 178
Yield point	43.5 N/mm ²	ISO 527
Elongation at break	165%	ISO 527
Tensile strength	42 N/mm ²	ISO 527
Vicat softening point	77°C	ISO 306
Hardness	79 Shore D	ISO 868
Inflammability	Class V0*	UL94

*Data on inflammability from our internal laboratory analysis. It is advised to test the material in a certified laboratory.
